Natural Shades Information

Measuring

- Use a metal tape measure only.
- Round to the nearest 1/8".

HORIZONS NATURAL SHADES

Outside Mount:

Measure for the exact width and height of the area you wish to cover. The shade should overlap the window opening by at least 3" in width and height. Mark your order "Outside Measurements (OM)".

Inside Mount:

Measure the exact width and height of the window opening. It is a good idea to check the inside width at the top middle and bottom of the window opening and provide the narrowest width. The workroom will deduct 1/2" from the width for clearance. Mark your order "Inside Measurements (IM)".

AVERTÉ NATURAL FOLD

Outside Mount:

Width: Measure the exact width of the window or sliding door including the trim (if there is any). We recommend adding a minimum overlap of 3" on each side of the window. Additional overlap may also be added to allow for complete stack-back. See "Stacking Dimensions" on page A7 for details.

Height: Measure the exact height of the window or sliding door including the trim. We recommend mounting the Averté to the wall above the window frame. Add 3" to the height to allow for the bracket height. Add an additional 2" at the bottom if the Averté is to hang below the window.

Inside Mount:

Width: Measure the exact width of the opening at the top where the track will be mounted. Be precise, the workroom will only make a 1/4" deduction to the track's width to fit inside.

Height: Measure the exact height of the opening in three places (left, middle and right). Provide the shortest height. The workroom will deduct 1/2" from the total unit's height (which includes the track and carriers). When an inside mount Averté is ordered with a valance, the workroom will also make the allowance for the valance board's thickness.

ÉLANCE SLIDING PANELS

Outside Mount:

Width: Measure the exact width of the window or sliding door including the trim (if there is any). We recommend adding a minimum overlap of 10" on each side of the window. Additional overlap may also be added to allow for complete stack-back. The fabric width (the total width of all the panels) will be made the ordered width. The track will be 1-1/2" wider than the ordered width. See "Stacking Space/Panel Width" on page A9 for details.

Height: Measure the exact height of the window or sliding door including the trim. If you want the Élance to go all of the way to the floor, measure to the floor. We recommend mounting the Élance to the wall above the window frame. Add 4" to the height to allow for the bracket height. Add an additional 2" at the bottom if the Élance is to hang below the window.

Inside Mount:

Width: Measure the exact width of the opening at the top where the track will be mounted. Be precise, the workroom will only make a 1/4" deduction to the track's width to fit inside.

Important Note: The total fabric width will be 1-1/4" narrower than the width of the track. **This will cause a 7/8" inch gap on the sides of an Inside Mount Élance.** If this much gapping is a concern, please consider an Outside Mount.

Height: Measure the exact height of the opening in three places (left, middle and right). Provide the shortest height. The workroom will deduct 1/2" from the total height of the unit for an Inside Mount.

Care Instructions

We suggest periodic vacuuming with a soft brush attachment. Due to the wide variety of natural products used to weave Horizons Natural Shades, wet cleaning is not recommended. To ensure their long life Horizons Natural Shades are recommended for indoor use only.

Freight Saver Shipping (Net Pricing)

Horizons Natural Shades, Averté and Élance are shipped at Freight Saver rates to all states in the continental U.S.A. These are NET rates. Rates are based on the width of the headrail. The Maximum charge is \$199 per order. Call customer service for shipping outside the Continental United States.

Width:	36"	48"	60"	72"	84"	96"+
Cost/Shade:	\$7	\$9	\$11	\$12	\$20	\$40

There is a \$19 per unit NET shipping and handling charge for all styles of Premium Woven Top Treatments.

Rush Charge

15% surcharge, \$20 minimum.

Guaranteed shipping for orders within 3 working days for orders up to 25 units and within 5 days for orders of 26 to 50 units. Maximum of 50 units can be on a rush order. Excludes Arch Top Shades and Angle Top Shades.
