

## Restringing Roman Fold Shade

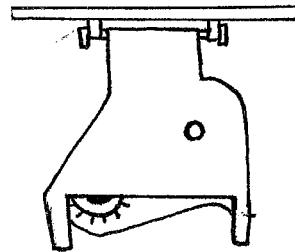

1. Position the "Cord Lock" so the "free locking wheel" is facing the **outside** edge of the shade.
2. String the cord through the cord lock from the bottom, over the stationary wheel and toward the center of the shade.
3. String the cords through the shade, over the pulley, one cord through each grommet, along the back of the shade, through the cord guides and tie securely to the bottom cord guide.
