The maximum sizes that the hardware systems can accommodate are 96" x 96" for a Spring Roller and 168" x 168" for Clutch Rollers, but is also subject to the size limitations of the fabrics as listed in columns 1 -3.

¹ **Maximum Size: Normal** - This is the largest size available without seaming or railroading.

² **Maximum Size: Railroaded** - This is the largest size available by turning the material sideways (railroading) without a seam.

³ **Maximum Size: Seamed** - This is the largest size available by turning the material sideways (railroading) with a visible horizontal seam.

⁴ **Railroad Restriction:** Patterns with "YES" under "Railroaded Restriction" can be railroaded, but the pattern will have a noticeably different orientation than a non-railroaded shade. For example, horizontal lines or patterns will run vertically. **Mixing railroaded and non-railroaded shades in the same room is not recommended.**

Shades of Elegance Information

Roller Shade Measuring

- Use a metal tape measure only.
- Round to the nearest 1/16".

INSIDE MOUNT:

Width: Measure the exact width of the window opening at the top, where the brackets will be mounted. Be precise and round to the nearest 1/16th of an inch. The workroom will deduct 1/8" (from the tip-to-tip size) to allow for clearance.

Important:

Due to the hardware requirements, there are significant light gaps at the edge of all roller shades. For spring roller shades, there is a 1/2" gap on each side and for clutch roller shades there is a 5/8" gap on each side. To avoid these light gaps, consider an Outside Mount.

Height: Measure the actual height of the window. The workroom will add fabric for roll up allowance.

OUTSIDE MOUNT:

Width: Measure at the top of the window where the brackets will be placed.

For Outside Mount, order as "Cloth Measurement" and provide the total width the fabric should cover. A 1-1/2" to 2" overlap on each side is recommended to stop light gaps.

Height: Measure the actual height of the window. The workroom will add fabric for roll up allowance.

Cleaning

Shades of Elegance:

We suggest periodic vacuuming with a soft brush attachment. Wet cleaning of any shade is highly discouraged, especially those with a cotton content.

Siesta Mylar Shades:

Clean mylar shades using a soft cloth that will not scratch the surface. Special care should be taken to not dent or wrinkle the shade.

Freight Saver Shipping (Net Pricing)

Horizons Shades of Elegance are shipped at Freight Saver rates to all states in the continental U.S.A. These are NET rates. Rates are based on the width of the unit. The Maximum Charge is \$99 per order. Call customer service for shipping outside the Continental United States.

Width:	36"	48"	60"	72"	84"	96"	120"+
Cost/Each:	\$6	\$8	\$10	\$11	\$17	\$24	\$40

Rush Charge

15% surcharge, \$20 minimum.

Guaranteed shipping for orders within 3 working days for orders up to 25 units and within 5 days for orders of 26 to 50 units. Maximum of 50 units can be on a rush order.
