Tranquility Walnut combined with Horizons Side Panels in the fabric Gallant Earth
When combined with fabric side panels and top treatments, Horizons Natural Woven Shades create a complete lifestyle design that reflects the personality of the homeowner. For some more creative fabric and woven combination suggestions, see pages D32-D39.
Natural Woven Shades

Photo Gallery
Horizons Cordless ONE Controls® are a patented shade lift system which completely eliminates the pull cord.

See it in motion at horizonthades.com/cordless
The Twin Shade™ is a surprisingly versatile solution. It is two shades in one. For the front shade, choose from over 170 Horizons Natural Woven Shade weaves. For the back shade, choose from over 320 fabrics in the Shades of Elegance™ roller shade collection. The back shade acts as a movable lining.

With the back shade raised, you get all the natural beauty of the woven shade.

Simply lower the back shade to add privacy.

The back shade can even be lowered with the front shade raised for a completely different look.
See more beautiful room-setting photo on the Horizons App or in our online photo gallery. Visit horizonshades.com for details.
The Duo-Fold option allows the same shade to raise from the bottom or lower from the top.
Averté Natural Fold™

Photo Gallery

Natural Woven Shades
Élance Sliding Panels™ are the perfect blend of natural material, traditional design and modern fashion sense.

Offering perfect coordination, nothing goes better together than Averté Natural Fold and Horizons Natural Shades.
Offering perfect coordination, nothing coordinates better than The Averté Natural Fold™ and Horizons Natural Woven Shades.

Photo Gallery
Horizons Natural Woven Side Panels are a beautiful combination of today’s two most desirable window fashion trends – side panels and natural woven materials.

Combined with Horizons Decorative Hardware, they are offered in two styles: Grommet Style Panels and Ring Clip Style Panels.

These are the twill tape selections for edge accents banding, inset edge accents banding and valance ties. Shown actual size.

Unlimited additional choices!

Any of the fabrics from our Horizons soft treatments line may also be used as edge accents, inset edge accents or valance ties on natural shades. This choice doesn’t cost any more than the standard twill tape choices. Edge accents and valance ties may also be created from your customer’s own material (C.O.M.).

Please note that color may vary in the printing process.

Each Add'L 6" in Height: $78

---

Due to the natural characteristics of natural woven material, on rare occasions a pattern is woven an inch or two narrower than 120". If you have a 118" wide order please contact customer service to check current inventory.
Natural Woven Shades Information

Measuring Guidelines

- Use a metal tape measure only.
- Round to the nearest 1/8".

**HORIZONS NATURAL SHADES - Measuring Guidelines**

**Outside Mount:**
Measure for the exact width and height of the area you wish to cover. The shade should overlap the window opening by at least 3" in width and height. Mark your order “Outside Measurements (OM)”.

**Inside Mount:**
Measure the exact width and height of the window opening. It is a good idea to check the inside width at the top, middle and bottom of the window opening and provide the narrowest width. The workroom will deduct 1/2" from the width for clearance. Mark your order “Inside Measurements (IM)”.

**AVERTÉ NATURAL FOLD - Measuring Guidelines**

**Outside Mount:**
Width: Measure the exact width of the window or sliding door including the trim (if there is any). We recommend adding a minimum overlap of 3” on each side of the window. Additional overlap may also be added to allow for complete stack-back. See “Stacking Dimensions” on page D57 for details.

Height: Measure the exact height of the window or sliding door including the trim. We recommend mounting the Averté to the wall above the window frame. Add 3" to the height to allow for the bracket height. Add an additional 2" at the bottom if the Averté is to hang below the window.

**Inside Mount:**
Width: Measure the exact width of the opening at the top where the track will be mounted. Be precise, the workroom will only make a 1/4" deduction to the track’s width to fit inside.

Height: Measure the exact height of the opening in three places (left, middle and right). Provide the shortest height. The workroom will deduct 1/2" from the total unit’s height (which includes the track and carriers). When an inside mount Averté is ordered with a valance, the workroom will also make the allowance for the valance board’s thickness.

**ÉLANCE SLIDING PANELS - Measuring Guidelines**

**Outside Mount:**
Width: Measure the exact width of the window or sliding door including the trim (if there is any). We recommend adding a minimum overlap of 10" on each side of the window. Additional overlap may also be added to allow for complete stack-back. The fabric width (the total width of all the panels) will be made the ordered width. The track will be 1-1/2" wider than the ordered width. See “Stacking Space/Panel Width” on page D59 for details.

Height: Measure the exact height of the window or sliding door including the trim. If you want the Élance to go all of the way to the floor, measure to the floor. We recommend mounting the Élance to the wall above the window frame. Add 4" to the height to allow for the bracket height. Add an additional 2" at the bottom if the Élance is to hang below the window.

**Inside Mount:**
Width: Measure the exact width of the opening at the top where the track will be mounted. Be precise, the workroom will only make a 1/4" deduction to the track’s width to fit inside.

**Important Note:** The total fabric width will be 1-1/4" narrower than the width of the track. This will cause a 7/8" inch gap on the sides of an Inside Mount Élance. If this much gapping is a concern, please consider an Outside Mount.

Height: Measure the exact height of the opening in three places (left, middle and right). Provide the shortest height. The workroom will deduct 1/2" from the total height of the unit for an Inside Mount.

Care Instructions

We suggest periodic vacuuming with a soft brush attachment. Due to the wide variety of natural products used to weave Horizons Natural Shades, wet cleaning is not recommended. To ensure their long life Horizons Natural Shades are recommended for indoor use only.

Freight $aver Shipping (Net Pricing)

Horizons Natural Shades, Averté, Élance and Woven Side Panels are shipped at Freight $aver rates to all states in the continental U.S.A. These are NET rates. Rates are based on the width of the headrail. The maximum charge is $199 per order. Call customer service for shipping outside the Continental United States.

Shade Styles

CLASSIC ROMAN SHADE:
Simple and elegant, the Classic Roman Shade lies flat when lowered.

HOBBLED ROMAN SHADE:
This shade keeps its elegant Roman folds when lowered.

Standard Shade Features

- Premium stained or painted pine headrail (1-1/2" depth x 3/4" high)
- 6" Classic Valance
- Cord lock and pulley controls

Standard Size Limitations

Minimum Width: 8"  
Maximum Width: 120"**  
Minimum Height: 12"  
Maximum Height (Classic): 192"  
Maximum Height (Hobbled): 144"  
Flush inside mount depth required: 2"  
Minimum inside depth: 1/2"  

See the special size limitations for Cordless ONE Controls, UpRight, Duo-Fold and Multiple Shades on One Headrail.

*Due to the natural characteristics of natural woven material, on rare occasions a pattern is woven an inch or two narrower than 120". If you have a 118" wide order please contact customer service to check current inventory.

**Stacking heights are approximate.

Installation Methods

2" SCREWS are standard for all IM shades. They are simply screwed straight up through the headrail. 3" screws are available with IM turned headrail.

NEW YORK BRACKETS ("NY") are standard for all OM shades with valances except UpRight and Cordless Shades.

"L" BRACKETS are standard with all OM Waterfall and Duo-Fold shades.

SPECIALTY NEW YORK BRACKETS ("SND") are standard for all OM Upright and Cordless ONE Controls® installations.

EXTENDED NEW YORK BRACKETS ("XNY") are another alternative OM installation bracket. They extend the shade 2" out from the wall.

FOOTLESS BRACKETS ("FB") are another alternative IM installation bracket.

Measuring Notes

- The workroom will deduct 1/2" from the width for an inside mount (IM).

- See page D49 for detailed measuring instructions.
6” Classic Valance

The 6” Classic Valance is attached to the front of Horizons Natural Woven Shades and hides the hardware.
- Standard Height 6” tall
- Custom heights from 4” to 10” are available at no extra charge.

VALANCE RETURNS

Valance Returns are a no charge option on all shades with valances. They are supplied upon request only.

Sleek Returns stay neatly in place and do not flair out even when the shade is fully stacked. On shades with cord locks, they are 2” tall. On shades with UpRight, they are 3” tall. They are standard when returns are requested.

Traditional Returns: Traditional full-length returns “dog ear” when raised and are available on request.

BACK VALANCE

An additional valance may be ordered on the back (exterior) side of waterfall or duo-fold shades to hide the hardware. Add the price of a 6” Classic Valance Only.

Options

UPRIGHT CONTROLS (CLUTCH)

UpRight is Horizons’ convenient continuous clutch control and is available as a no charge option.
- Shades with UpRight are made with a 2-1/2” headrail. Specialty New York Brackets are used due to the larger headrail size, not to increase the shade’s distance from the wall. “L” Brackets are an alternative OM installation method. 2” Screws are an alternative IM installation method.
- The ordered width is the shade width for OM shades. The valance will be up to 1” wider. For IM, the valance will be 1/2” narrower than the ordered width and the shade will be a total of 7/8” narrower (5/8” on the control side and 1/4” on the non-control side).
- The Old-UpRight controls are still available upon request; specify “Old-UpRight” when ordering.
- Valance returns are not recommended for IM shades with UpRight as they can further increase the gap on the control side up to 1-1/2”.

 Minimum Width: 12”
 Flush inside mount depth required: 3”
 Minimum inside mount depth: 1”

- UpRight controls add approximately 1” to a shade’s stacking height.
- Color coordinated chain controls are standard on UpRight.

WATERFALL STYLE

Shades may be ordered with the shade mounted to the front of the headrail, eliminating the need for a valance. With a Waterfall shade, the controls are concealed behind the shade. This is a no charge option.

DUO-FOLD CONTROLS

Duo-Fold is Horizons’ unique top-down/bottom-up cord lock control option. The shade may be raised from the bottom or lowered from the top.
- The minimum Duo-Fold width is 12”, the maximum width is 84”
- Duo-Fold is not available with Cordless ONE Controls® or UpRight controls.

LINING

Privacy or Blackout lining is available on all shades.
- The face of the lining fabric is color-coordinated to the shade color. The back (exterior) side is off white.
- C.O.M. linings are not accepted.
- For a shade with movable lining, consider the Twin Shade (page D56).

OVERSIZED HEADRAILS

The standard headrail size is 3/4” tall by 1-1/2” depth or 3/4” tall by 2-1/2” depth with UpRight and some Cordless ONE Controls® shades.
Larger depths of 3-1/2”, 5-1/2” and 7-1/2” are also available for a surcharge.

TURNED HEADRAIL

A “Turned Headrail” makes the headrail’s depth 3/4” and the height 1-1/2”. This is most commonly used in cases of limited mounting depth.
- Turned headrails are not available on Cordless, UpRight and Duo-Fold shades.
- 3” screws are available for IM. 2” screws are offered for OM. New York and “L” brackets are not available.
- This is a no charge option.

MITERED HEADRAILS

Mitered headrails are used to butt shades meeting in a corner or bay.
- Note: mitered shades usually butt together so closely that they cannot be raised to the same height.
- Any miter other than an exact 90˚ angle requires a template or an exact drawing of the actual angle.
- Miters are not available on Hobbled Roman Shades.
- When ordering, give the measurement from the corner to where you want the shade to end.
- Shade width is the back side of the mitered headrail.
Cordless ONE Controls

Horizons’ Cordless ONE Controls® are a patented (U.S. Patent #8,505,607 B2) lift system which completely eliminates pull cords.

Cordless ONE Controls are now a no charge option on all Natural Woven Shades.

SIZE LIMITATIONS
Minimum Width: 19”
Flush IM depth with 1-1/2” headrail: 2”
Flush IM depth with 2-1/2” headrail: 3”
Minimum IM depth: 3/4”
Maximum Sizes: See the charts to the right. Any size in the light green or the dark green areas may have Cordless ONE Controls®.

STACKING DIMENSIONS
Cordless ONE Controls® add approximately 2-1/2” to the stacking dimension.

HEADRAILS SIZES
CLASSIC ROMAN SHADES will be made with either a 1-1/2” or 2-1/2” headrail depending on the shade size and pattern. See the charts to the right for headrail sizes.

Orders that require shades with both large and small headrails will be made with both sizes, but you may specify all large headrails.

HOBbled ROMAN SHADES are only available with the 2-1/2” headrail.

NOT AVAILABLE CORDLESS WHERE WHITE

February 2014
**Multiple Shades on One Headrail**

Two-on-Ones & Three-on-Ones are multiple shades mounted on a single headrail, usually with a common valance.

- Provide the sizes of each individual shade AND the total width of the unit. The sizes of the individual shades must add up to the total width.
- The maximum total width for Two-on-Ones & Three-on-Ones is 144”, but the common valance is limited to the width of the material shown on page D41. Valances with a butting seam are available.
- The workroom will make allowances for inside mount and the spaces between the shades (1/2”).
- Price as separate shades.

**Contempo Scallops**

- Contempo Scallops are available in 6 standard patterns or any pattern from your template. They are available on the bottom of the shade and/or valance.
- The height of the shade is to the long point of the Contempo Scallop.
- Valances with Contempo Scallops are made with an 8” long point.
- Standard gimp is included with all Contempo Scallops. Choose a color from page B25.
- Bead or tassel fringe may also be added.

**Decorative Trimings**

Decorative Trimings (fringes, gimps, beads and tassels) are available as beautiful accents across the bottom of the shade and/or valance.

- Horizons’ complete Decorative Trimings collection is pictured starting on page B20-B25.
- C.O.M. trimmings are also accepted.

**Additional Valance Options**

- Pages D60-D65

**Pricing**

- Pages D42-D43

---

**Edge Accents Banding**

Natural Woven Shades may be enhanced with a 2” wide fabric strip fused to the edges and/or bottoms of the shade and valance.

- They are fused to the front of the shade/valance and do not wrap around to show from behind.

**Inset Edge Accents Banding**

In addition to being offered on the edge of the shade, banding may also be inset from the edge 2”.

**Edge Accents Banding Fabric Choices**

- **Twill Tapes**: Edge Accents Banding is available in 6 standard twill tape colors. See page D40.
- **Horizons Soft Treatments**: Any of the non-sheer fabrics in the Horizons Soft Treatments sample book.
- **C.O.M.**: Your own material may also be applied as Edge Accents Banding:
  - C.O.M. Type: Pre-shrunk natural fabrics like cottons are best. Synthetic fabrics, very thin fabrics do not fuse well to shades and will not be accepted. Call customer service for more detail.
  - C.O.M. Quantity: Use the following formula to calculate how many yards of C.O.M. to send:
    
    \[
    \text{Yards of C.O.M.} = \left( \frac{\text{Greater of Shade Height OR Width} + 10”}{36} \right)
    \]

This formula is for a standard 54” wide fabric and yields enough material for up to 5 shades. Hobbled Roman Shades require adding 50% more material for the folds.

Send full widths of fabric and Horizons will cut it into strips. See page B65 for “Procedures for sending C.O.M. to Horizons”.

**Cut Outs**

- Cut Outs may be taken from any corner, edge or even the center of a shade.
- Please provide a detailed Cut Out diagram.

**Cut Material**

Cut Material may be ordered in any pattern. There are many decorative uses like table runners, place mats, wall-coverings and craft projects.
- It may be hemmed upon request at no charge.
Twin Shade

The Twin Shade is a dual shade system with a beautiful roman shade on the front and a roller shade on the back that acts like a movable lining. The front roman shade can be from either the Natural Shade, Soft Treatments or Shades of Elegance collections. Choose the back roller shade from the Shades of Elegance roller shade collection.

Standard Features
- The patented (#8,261,808 B2) dual headrail system.
- Classic Valance.
- Cord lock controls on the front Roman Shade
- Clutch controls on the back Roller Shade

Size Limitations

| Minimum Width: | 21" | IM depth required: |
| Maximum Width: | 96" | (shades up to 72" x 72") 3" |
| Minimum Height: | 24" | (shades over to 72" x 72") 4" |
| Maximum Height: | 96" | (shades with UpRight) 4" |

Available Patterns
- The front shade may be ordered in any of the Horizons Natural Shade, Soft Treatments or Shades of Elegance collections.
- The back shade may be ordered in any of the Shades of Elegance fabrics EXCEPT Siesta.

Valance and Returns
- Twin Shades with cord lock controls will have an 8" long classic valance.
- Twin Shades with UpRight Controls will have a 10" long valance.
- Outside Mount Twin Shades will have full length valance returns.
- Inside Mount Twin Shades are constructed without returns.

<td>18&quot;</td>
</tr>
<tr>
<td>96&quot;</td>
<td>19&quot;</td>
</tr>
</tbody>
</table>

Stacking heights are approximate.

Installation Brackets

Extended New York ("XNY") Brackets are used for OM Twin Shades due to the larger headrail size, not to increase the shade’s distance from the wall.

2" Screws are standard for IM Twin Shades. Footless Brackets are an alternative IM option.

Headrail Size

Twin Shades constructed with a 3-1/2" top headrail:
- All OM Twin Shades
- IM Twin Shades over 72"x 72"
- All Twin Shades with UpRight

Twin Shades constructed with a 2-1/2" top headrail:
- IM Twin Shades under 72"x 72" that do not have an UpRight

Measuring Notes

For an OUTSIDE MOUNT:
A. The headrail and valance will be approximately 1" wider on each side than the front shade.
B. The front shade will be the exact width you order.
C. The back shade will also be the exact width you order.

For an INSIDE MOUNT:
A. The headrail and valance will only be 1/8" narrower than the exact width you order. Measure the inside width very precisely at the top of the window where the headrail will be mounted.
B. The front shade will be 3/4" narrower than the headrail on the control side and 1/4" narrower on the opposite side.
C. The back shade will be 3/4" narrower than the front shade on each side.

Options

Available options for the front shade:
- Cordless ONE Controls®
- UpRight Controls
- Lining
- Edge Accents Banding
- Decorative Trimmings
- Duo-Fold
See pages D53-D55 for more details about these options

Options NOT available on a Twin Shade: Waterfall Style, Hobbled Style, Sleek-Valance Returns, Mitered Headrails, Turned Headrails, Multiple Shades on One Headrail, Contempo Scallops, Spring Roller Controls, Decorative Pulls and Motorization.

PRICING: page D42 (front), C38 (back)
Averté Natural Fold

Use Averté on a window like a drapery, on a patio door like a vertical blind or as a room divider. There are no draw cords to tangle or break!

**Standard Features**
- Sturdy, light weight aluminum track
- 5% fullness
- Color coordinated wood lead rails

**Size Limitations**
- Minimum Width: 12"
- Maximum Width: 288"
- Minimum Height: 12"
- Maximum Height: 120"
- Minimum IM depth: 3"
- Minimum Flush IM depth: 5-1/2"

<td>288&quot;</td>
</tr>
</tbody>
</table>

**Installation Brackets**
- Wall Brackets are for all OM Averté. They are adjustable from 3" to 4-1/4" for use as an extension bracket.
- Ceiling Brackets are for all IM Averté.

**Measuring Notes**
- The workroom will deduct 1/4" from the width of the track for an inside mount (IM).
- The height of an outside mounted Averté is the total unit height including the track, but not the valance board height.
- For inside mount, furnish the exact opening height and Horizons will allow for the track and valance board, less a 1/2" deduction at the bottom.
- See page D49 for measuring instructions.

**Options**
- **SPLIT DRAW**
  - A split draw Averté has two center rails that join magnetically.

**LINING**
Privacy or Blackout lining is available on Averté.
- The face of the lining fabric is color coordinated to the Averté material color. The back (exterior) side is off white.

**VALANCES AND TOP TREATMENTS**
All valances and top treatments are a surcharged option on Averté. Choose from the Casual Woven Valances (page D60), Premium Woven Top Treatments, (pages D61-D65), Upholstered Cornices (pages B124-B127) or the fabric Premium Top Treatments (pages B128-B143).
- 6” Classic Valances and Hobbled Valances will come 1” wider than the Averté track. Order other top treatments at least 3” wider than the Averté for clearance. A 5-1/2” board/return size is also recommended.

**DECORATIVE KNOBS**
- Decorative Knobs are supplied upon request only.
- They will be positioned half way up the lead rails unless otherwise specified.

**EXTRA FULLNESS**
- The standard Averté comes with 5% fullness and lays nearly flat when drawn.
- Extra fullness of 20% is available.
- Add 15% to the “Stacking Dimensions” chart for an Averté with extra fullness.

**DECORATIVE POLE TRACK**
As an alternative to a valance, Averté is also available with a decorative wood pole track. The Averté track is routed into the wood pole.
- Choose from any of the finial styles and colors from the 2" Collections. See pages E15-E29.
- The maximum width is 192". Poles over 96" wide will have a center splice.
- Decorative Pole Averté are only available as OM.
- The total ordered height includes the decorative pole.
- The lead (hand) rails will match your decorative hardware color choice unless otherwise specified.

**MOTORIZATION:** pages D69

**PRICING:** page D44

February 2014
Natural Woven Side Panels

Natural Woven Side Panels are stationary drapery panels that are purely decorative and are designed to remain at the sides of the window.

**Grommet Style Panels** have beautiful folds created by inserting a decorative pole through grommets at the top of the panel. See the “Grommet Woven Side Panel” in the index on page D41 for a list of all patterns available as Grommet Side Panels.

**Ring Clip Panels** are similar to the flat style of traditional side panel. They hang below the decorative pole on ring clips. All Horizons Natural Woven Shade patterns are available as Ring Clip Panels.

**Standard Features**
- 2 1/2 times fullness
- Rounded, ripple-fold style pleats
- Double folded side hems
- 3 1/2” Returns

**Size Limitations**
Panels are available 20” wide or 40” finished width when hung. For example, a 20” panel with 2-1/2 times fullness is 50” wide when flat before hanging.

- Minimum Height: 12”
- Maximum Height: 120”

**Measuring Notes**
- The ordered height is the exact height of the panel, not including hardware.
- Natural Woven Side Panels and Horizons Decorative Hardware are available for outside mount installations only.

**Options**

**Edge Accents and Decorative Trimming**
The leading edge(s) and/or the stationary edges of Natural Woven Side Panels may be embellished with 2” wide Edge Accents Banding and/or Decorative Trimmings.
- See page D55 for recommended Edge Accents fabrics.
- For C.O.M. fabric Edge Accents send the full height of the side panel.

**Pricing:** page D45
Élance Sliding Panels

Combine the refreshing new look of a panel track with warm natural woven materials to create Natural Woven Élance Sliding Panels.

Standard Specifications
- Smooth gliding draw cord controls.
- 2" minimum panel overlap
- Metal panel track

<tr>
<td>6 panel track</td>
<td>-</td>
<td>2-1/2&quot;</td>
</tr>
</tbody>
</table>

Stacking Dimensions
The stacking dimension is the width of the unit divided by the number of panels plus 2". For example, a 100" wide Élance with 4 panels would have a stack of 27" (100" wide + 4 panels + 2`).

Measuring Notes

**Inside Mount:** The workroom will deduct 1/4" from the width and 1/2" from the total height of the unit for an Inside Mount.
**Important Note:** The total fabric width will be 1-1/2" narrower than the width of the track. This will cause a 7/8" inch gap on each side of an Inside Mount Élance.

**Outside Mount:** The fabric width (the total width of all the panels) will be made the ordered width. The track will be 1-1/2" wider than the ordered width.
- See page D49 for detailed measuring instructions.

Installation Brackets

**WALL BRACKETS** are for all OM Élance, and are adjustable from 4-1/4" - 6-1/2".

**CEILING BRACKETS** are for all IM Élance.

Control Options
- Color coordinated nylon draw cords are standard for operating an Élance.
- Wand operation is a no charge option.

Pattern Orientation
The pattern in the panels runs vertically. The pattern in the valance runs horizontally.

Valances and Top Treatments
All valances and top treatments are a surcharged option on Élance. Choose from the Casual Woven Valances (page D60), Premium Woven Top Treatments, (pages D61-D65), Upholstered Cornices (pages B124-B127) or the fabric Premium Top Treatments (pages B128-B143).
- Order other top treatments at least 3" wider than the Élance for clearance. A 5-1/2" board/return size is also recommended.
- For an Élance, the Casual Valances are attached to the front of the track with velcro. For Outside Mounts, valance returns are included at no extra charge. Inside Mount valances do not include valance returns unless requested.

Pricing: page D46
Casual Woven Valances

Casual Valances include the 6” Classic Valance and the Double and Triple Hobbled Valances. In addition to being offered as part of a Natural Woven Shade, the Casual Woven Valances are also available as separate, board-mounted top treatments.

Standard Specifications

• Premium stained or painted pine headrail (1-1/2” depth x 3/4” high)

Size Limitation

Minimum Width: 6”
Maximum Width: 120”
6” Classic Valance Height: 6”
Double Hobbled Valance Height: 12”
Triple Hobbled Valance Height: 18”

Multiple valances may be butted together to go over a wider Averté or Élance.

Measuring Notes

• The workroom will deduct 1/2” from the width for an inside mounts (IM).

Installation Brackets

“L” BRACKETS are for all OM valances.
2” SCREWS are for all IM valances.

Options

VALANCE RETURNS
See page D53

EXTENDED PROJECTION
The standard board on a Casual Valance is 3/4” tall and has a projection of 1-1/2”. Larger projections of 2-1/2”, 3-1/2”, 5-1/2”, 7-1/4” or 9-1/4” are also available.

PRICING: page D47
**Style: A1**

**WIDTH**
- Minimum: 24"
- Maximum: 120"

**HEIGHTS**
- 10", 14" or 18"

**RETURN/BOARD SIZES**
- 3-1/2" returns are standard.
- 1-1/2", 2-1/2", 5-1/2", 7-1/4" and 9-1/4" returns are also available.

**MEASURING NOTES**
- Outside mount only
- This style is constructed with solid wood legs for returns. Add a minimum of 3" to the width to allow for their thickness.
- A1 is mounted with “L” brackets like a traditional cornice.

**LINING**
- This style is constructed with blackout lining.

**EDGE ACCENTS BANDING**
- 2” Edge Accents Banding is optional on the sides and/or bottom of the treatment. See page D55 for Edge Accent Banding guidelines.

**DECORATIVE TRIMMINGS**
- Bead fringes, tassel fringes, traditional fringes or gimp may be placed along the bottom edge of the treatment. See pages B20-B25 for more information.

**VALANCE TIES**
- A pair of 2” valance ties may be added with or without tails. Choose any fabric from the Horizons Soft Treatments line or C.O.M.

Premium Woven Top Treatments

**Style: A5**

**WIDTH**
- Minimum: 24”
- Maximum: 192”

**HEIGHTS**
- 14” or 18”

**RETURN/BOARD SIZES**
- 3-1/2” returns are standard.
- 1-1/2”, 2-1/2”, 5-1/2”, 7-1/4” and 9-1/4” returns are also available.

**MEASURING NOTES**
- Outside mount only
- This style is constructed with solid wood legs for returns. Add a minimum of 3” to the width to allow for their thickness.
- A5 is mounted with “L” brackets like a traditional cornice.

**LINING**
- This style is constructed with blackout lining.

**FABRIC SASH**
- The 3-1/2” tall fabric sash is automatically part of the A5. They are proportional to the width of the valance and range from 6” wide for the narrowest width to 12” wide for the widest.
- Choose any standard (non-sheer) fabric from the Horizons Soft Treatments line or C.O.M.

**C.O.M. YARDAGE REQUIREMENTS**
- Fabric Sash: 1
- If material cannot be cut and seamed, use this formula for yardage: width + 30”

**CLEARANCE**
- If ordered with a 2” pole, the clearance will be 4-1/8” for standard brackets or 7-1/8” for extension brackets.
- If ordered with a 1-3/8” pole, the clearance will be 3-3/4” for standard brackets or 6-1/2” for extension brackets.
- If ordered with a 3/4” metal rod the clearance may be adjusted from 3-3/4” to 5-3/4”.
- Please note: the A6 does not have valance returns.

**PRICING**: page D47

---

**Style: A6**

**WIDTH**
- Minimum: 24”
- Maximum: 120”

**HEIGHTS**
- 10” with 3-3/8” layers
- 14” with 4-5/8” layers
- 18” with 6” layers
- The height does not include the pole and rings.

**MEASURING NOTES**
- Outside mount only
- The width does not include the finials on the pole. See Decorative Hardware (pages E1-E50 for sizes and selections.
- A6 is mounted with drapery pins attached to rings on a decorative pole.

**CLEARANCE**
- If ordered with a 2” pole, the clearance will be 4-1/8” for standard brackets or 7-1/8” for extension brackets.
- If ordered with a 1-3/8” pole, the clearance will be 3-3/4” for standard brackets or 6-1/2” for extension brackets.
- If ordered with a 3/4” metal rod the clearance may be adjusted from 3-3/4” to 5-3/4”.
- Please note: the A6 does not have valance returns.

**LINING**
- This style is constructed with blackout lining.

**DECORATIVE POLE**
- Choose any style of Horizons Decorative Pole or Rod. Rings will automatically be included and are spaced approximately every 12” (pages E1-E50).

**DECORATIVE TRIMMINGS**
- Bead fringes, tassel fringes, traditional fringes or gimp may be placed along the bottom edge of each of the three layers. See pages B20-B25 for more information.

**PRICING**: page D47
### Style: A7

**WIDTH**
- Minimum: 24"
- Maximum: 120"

**HEIGHTS**
- 18" long point, 8" short point

**RETURN/BOARD SIZES**
- 3-1/2" returns are standard.
- 1-1/2", 2-1/2", 5-1/2", 7-1/4" and 9-1/4" returns are also available.

**MEASURING NOTES**
- Outside mount only
- This style is constructed with solid wood legs for returns. Add a minimum of 3" to the width to allow for their thickness.
- A7 is mounted with “L” brackets like a traditional cornice.

**LINING**
This style is constructed with blackout lining.

**EDGE ACCENTS BANDING**
Not applicable

**DECORATIVE TRIMMINGS**
Trim is required along the bottom edge. Simple color-coordinated gimp is standard (page B25). Bead fringes, tassel fringes, traditional fringes or gimp may optionally be chosen (pages B20-B25)

### Style: A8

**WIDTH**
- Minimum: 24"
- Maximum: 120"

**HEIGHTS**
- Back panel: 10", 14" or 18"
- The front panel is 4" shorter than the back panel.

**MEASURING NOTES**
- Outside mount only
- The width does not include the finials on the pole or the brackets. See Decorative Hardware (pages E1-E50) for sizes and selections.
- A8 is draped over and fastened to a decorative wood pole.

**CLEARANCE**
- If ordered with a 2" pole, the clearance will be 3" for a standard bracket or 6" for an extension bracket.
- If ordered with a 1-3/8" pole, the clearance will be 2-3/4" for a standard bracket or 5-1/2" for an extension bracket.
- Please note: the A8 does not have any returns.

**LINING**
Blackout lining is automatically included on the back panel.

**DECORATIVE POLE**
Choose any 1-3/8" or 2" Horizons Decorative wood pole. Metal poles are not an option.

**EDGE ACCENTS BANDING**
2" Edge Accents Banding is optional on the sides and/or bottom of the treatment. See page D55 for Edge Accent Banding guidelines.

**DECORATIVE TRIMMINGS**
Bead fringes, tassel fringes, traditional fringes or gimp may be placed along the bottom edge of the front and/or back panel. See pages B20-B25 for more information.
Style: A9

**WIDTH**
- Minimum: 30"
- Maximum: 192"

**HEIGHTS**
- 10", 14" or 18"

**MEASURING NOTES**
- 3-1/2" returns are standard.
- 1-1/2", 2-1/2", 5-1/2", 7-1/4" and 9-1/4" returns are also available.

**MEASURING NOTES**
- Outside mount only
- This style is constructed with solid wood legs for returns. Add a minimum of 3" to the width to allow for their thickness.
- A9 is mounted with "L" brackets like a traditional cornice.

**LINING**
This style is constructed with blackout lining.

**EDGE ACCENTS BANDING**
2" Edge Accents Banding is optional on the bottom of this treatment. See Page D55 for Edge Accents Banding guidelines.

**DECORATIVE TRIMMINGS**
Bead fringes, tassel fringes, traditional fringes or gimp may be placed along the bottom edge of the treatment. See pages B20-B25 for more information.

**DECORATIVE ACCENT FOLDS**
The A9 always has 3 decorative accent folds. They are proportional to the width of the valance and range from 6" wide for the narrowest width to 12" wide for the widest.

Angle Top Shades

- For an Angle Top Shade, please supply all 3 measurements (“A”, “B” and “C”) as shown.
- The maximum width (C) is 72”.
- Price an Angle Top shade using the straight width (C) and the tallest height (B) from the standard price charts on page D42.
- Specify “Straight-Bottom” or “Angle-Bottom” valance.
- The workroom will automatically deduct 1/2” from the width for an inside mount.
- Angle Top Shades are constructed with pulleys and cord cleats. They cannot be operated with a standard cord lock or any other control mechanism.

- All Angle Top Shades must be trimmed in gimp at the top. The best color will be determined by the workroom.
- The shade can only be raised to the bottom edge of the valance. The top portion is stationary.

Options

Available options for the Angle Top Shade:
- Lining
- Edge Accents Banding (not on angled edge of valance)
- Decorative Trimmings
See pages D53-D55 for more details about these options

**Pricing:** page D42 (see pricing notes above)
Arch Top Shades & Stationary Arches

- A template is required for all Arch Top Shades and Stationary Arches.

- Stationary Arches do not raise or lower.

- Arch Top Shades will only raise to the bottom of the valance. The top portion is stationary.

- To price a Stationary Arch or Arch Top Shade use the shade width and the total height of the unit (including the arch) and price from the standard shade price chart on page D42.

- The maximum width of an Arch Top Shade or a Stationary Arch is 72".

- For an inside mount Arch Top Shade, the workroom will deduct 1/4" around the perimeter of the arch from the template. A 1/2" deduction will be made to the shade’s width.

- For an inside mount Stationary Arch Top, the workroom will deduct 1/4" around the perimeter of the template.

- Arch Top Shades are constructed with pulleys and cord cleats. They cannot be operated with a standard cord lock or any other control mechanism.

- All Arches must be trimmed in gimp at the top. The best color will be determined by the workroom.

Options

Available options for the Angle Top Shade:
- Lining
- Edge Accents Banding (not on curved edge of arch)
- Decorative Trimmings
See pages D53-D55 for more details about these options

PRICING: page D42 (see pricing notes above)
Motorized Shades

Motorized Natural Roman Shades
Horizons Natural Woven Roman Shades are available with either BATTERY powered motors or A/C (plug-in) powered motors. The remote control is radio frequency.

Standard Specifications
• Reliable Somfy motor system
• Premium stained or painted pine headrail (3-1/2" depth x 3/4" high)
• 8" Classic Valance
• Pre-programmed for easy installation

Size Limitations

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

The maximum total size of a battery operated shade is 24 square feet and 120 square feet for A/C.

Controls
• The remote control for all motorized shades are radio frequency (not infrared) and come pre-programmed for your shades.
• Wall switch controls also available.
• One remote control is able to independently operate multiple shades in a single room.

Stacking Space
Motorization adds approximately 4" to the shade’s stacking dimension shown on page D52.

Measuring Notes
• Record the measurements of multiple shades in one room in sequence -- left to right -- on the order form. The workroom will pre-program the remote control in that sequence.
• Due to the 3-1/2" headrail, Extended New York Brackets are required for OM installation, but do not increase the shade’s distance from the wall. 2" Screws are recommended for IM installation.
• Specify the name of the room each shade will be in. This is required information for programming.

Options
All of the standard shade options on pages D53-D55 are available on motorized shades EXCEPT Cordless ONE Controls®, duo-fold, UpRight, turned headrail, hold downs and miters.

Battery Powered Notes
• Each shade includes a reloadable battery pack with 8 lithium “AA” batteries. The life of the battery pack is approximately 2 years, under normal daily use. Replacement batteries may be purchased at any store that sells lithium batteries.

• Hobbled Roman Shades are not available battery powered. They must be A/C.

A/C (Plug-In) Notes
• A/C shades come standard with a 6-foot long power cord that plugs into a standard wall outlet. Lengths of 12’, 18’ or 24’ are also available. The shades may optionally be hard-wired to the wall by a professional electrician.
• To avoid possible interference, A/C motors should be at least 19" apart.
• The standard motor location is on the right side of the shade. Motor location on the left may be specified.

PRICING: Price shade from pages D42-D43 plus motorization on page F1
Motorized Averté

Averté Natural Fold

The Averté Natural Fold is available with A/C (plug-in) powered motors. The remote control is infrared.

Standard Specifications

• Heavy-duty Makita motor system
• Pre-programmed for easy installation

Size Limitations

Minimum Width: 24”
Maximum Width: 240”
Minimum Height: 24”
Maximum Height: 120”

Remote Control

• The remote controls for all motorized averté are infrared (line of sight) and come pre-programmed for your shades.
• One remote control is able to operate up to 6 shades in a single room.

Measuring Notes

• Record the measurements of multiple averté in one room in sequence – left to right – on the order form. The workroom will pre-program the remote in that sequence.
• Specify the name of the room each averté will be in. This is required information for programming.

Power Cord Length

Motorized Averté come standard with a 9-foot long power cord which plugs into a standard wall outlet. The Averté may optionally be hard-wired to the wall by a professional electrician.

Stacking Space

The motor adds approximately 4” to the averté stacking dimension shown on page D57.

Motor Location

• On a one-way draw Averté, the motor is located at the end of the track on the same side as the stack. For example, a one-way draw-right Averté will have the motor on the right.
• For a split-draw Averté, the standard location for the motor is on the right. Motor location on the left may be specified.

Options

The standard Averté options of split draw, lining, valances and extra fullness are all available on a motorized unit. Decorative pole track is not available. See page D57 for option details.

PRICING: Price Averté from page D44 plus motorization on page F1
